Where everybody wants to be: everybody is welcome and enjoys success!

A message from the Head:

Happy Half Term!

We have had a very busy first half term back at school. The children have settled in well and have been working hard. We enjoy sharing their successes in our 'Celebration' assembly, every Monday.

Year 1 put on a lovely Harvest Assembly a couple of weeks ago and enjoyed sharing books with their parents afterwards.

Thank you for trying hard to work with us in improving attendance and punctuality - remember, save those holidays for the school holidays!

Finally, if you have any concerns or worries, please talk to us and we will always do our best to find a solution.

Best wishes, Mrs Humphries

PS. Y6 Parents...don't forget to get your child's secondary application completed by 31st October 2023.

How Does School Attendance Affect a Child's Learning?

Attendance

Parking around school

Parking around school remains an issue. Please be considerate and remember children are not always careful when crossing roads, we need cars to be parked considerately and legally. Cars should not park on the yellow zig-zag lines: Yellow zig-zag lines outside schools indicate the length of road where stopping or waiting is strictly prohibited.

PLEASE do not park illegally: help keep all the children safe.

I have submitted a request for a zebra crossing on Pool Street, lets hope this is possible.

Start of the school day

A reminder: Children are not supervised at school until 8:40am. Please do not leave your children unattended before this time, school staff are not on duty to supervise them until 8:40am.

Internet Safety Tips

In school we have filtering and monitoring software that enables us to protect children from things on the Internet they should not see; it also enables us to check that what they are doing online is appropriate. As a parent this can be more difficult to police. Here a few tips to think about to help keep your child safe online:

- Children are at most risk on an unsupervised device, usually in their bedrooms. Think carefully about where you allow children to use technology. Establish rules and boundaries about technology use in your home - when, where and for how long. Remember you need to model healthy online behaviour as well.
- Online harm can happen to any child - please don't assume it won't happen to yours.
- There are some people online who might want to do your child harm. Have age-appropriate conversations about this with your child - how to spot the signs, what to do and who to talk to if they are worried.
